# Kansas Template

## *My Subtitle*

Brian C. Helsel, Lauren T. Ptomey, Amy Bodde, Joseph R. Sherman

June 27, 2024

**Abstract**

"Quarto is a multi-language, next generation version of R Markdown from Posit, with many new features and capabilities. Like R Markdown, Quarto uses knitr to execute R code, and is therefore able to render most existing Rmd files without modification. Extensions are a powerful way to modify and extend the behavior of Quarto." This text was copied verbatim from the Quarto website (quarto.org) to generate text for an abstract within the quarto-kansas extension.

## Introduction

*TODO* Create an example file that demonstrates the formatting and features of your format.

## More Information

You can learn more about controlling the appearance of HTML output here: https://quarto.org/docs/output-formats/html-basics.html

## Additional Information

This is what a code block looks like:

```r
x <- 1
y <- 2

x + y
```

```
[1] 3
```
